

Our Practice is now offering our patients easy and private access to their medical information online, so you can view your personal health record whenever and wherever you have access to the Internet

Gain access to your private health information and receive periodic updates and reminders from your doctor on your personal e-mail address

What are the benefits with the patient portal?

Appointments

Book and keep track of appointments

Messages

Send & receive messages from staff

Lab Results

Access and view lab results

Demographic Information

Update demographic information

Medication

Request prescription refills

Referrals

View & request referrals

Medical Records

View your personal health record

How do I get Web- Enabled?

To gain access to our secure server on Patient Portal and become web-enabled, simply sign up by providing us with a personal (non-work) e-mail address.

You will be able to securely log in with your username and password, and gain access to your personal health record and other helpful features from any computer or smartphone with an Internet connection

By providing your email, you will be web-enabled and labs will be sent to your secure portal address. If we need to contact you further to discuss results we will use the first number provided on your check-in paperwork. _____

initial

If you have provided your email in the past we will use the one on file for your portal. If you would like to opt out, please let one of the staff members know.

Patient Name: _____

Date of Birth: _____

Today's Date: _____
